

nFORM

Complete online form +
application management
solution

Design. Publish. Process.

Simplify gathering information and
taking applications online.

Design

Start with one of our hundreds of
templates or quickly build your own
from the ground up.

Publish

Start taking applications immediately
after publishing your form online
using just your web browser.

Process

Use automated tagging, notifications,
and storage, as well as powerful
online review and approval tools to
easily and quickly process the data
you receive.

Windsor's nFORM streamlines the
process of permitting, licensing, and
certification for both you and the
community you serve.

Intuitive to build.

Easy-to-learn editor makes adjusting a
template or building your own custom
form a snap, PLUS take advantage of
over 800 templates covering 50+
program areas

Easy to integrate.

Pain-free online publishing that doesn't
require IT support, and that integrates
with most backend systems and many
online payment processors

Simple to use.

Clean, contemporary user interface, as
well as automatic tagging, user and
approver notifications, and secure
storage of submissions

Made to collaborate.

Fully transparent application process
and status, and dynamic online
approver tools

Compliance-ready.

VPAT-certified for compliance with the
Americans with Disabilities Act (ADA
W3C 508 compliant) and fully supports
eSignatures and CROMERR, as well as
Annual Penetration Test certification.

**Our mission is to make it
simpler for environmental
agencies to accomplish
theirs.**

Every day you work to ensure the air,
water, and land in your community is
well managed, so the people and
businesses around you can thrive. We
believe your work is important, which is
why our mission is to use technology to
make what you do simpler and easier.

Windsor Solutions, based in Portland, OR, has
been working with state environmental
regulatory agencies in the United States for
more than 20 years.

nFORM

Complete online form +
application management
solution

Design. Publish. Process.

Simplify gathering information and
taking applications online.

Have more control

Always up-to-date

Easily keep forms and applications relevant without depending on expensive consultants or busy IT staff

Paper-free

Because everything is digital, it's impossible to lose submissions or supporting materials; everything is saved, tagged, and backed up on your server

Fully integrated

Windsor's nFORM effortlessly integrates with your existing web architecture and backend systems, making publication, storage, and reporting simpler

Save more time

Less busywork

Reduce administrative overhead like filing, deciphering illegible handwriting, and tracking down approvers

Everything together

Have all relevant application materials at your fingertips as digital attachments to the completed submission

Easier processing

Stop pushing paper all over the office, and review more submissions in less time from your desktop computer or mobile device

Provide better service

More engagement

Collaborate with applicants as you review their submissions using tools like activity tracking, facilitated correspondence, resubmission, and confirmation

Fewer errors

Add functions like pre-population, calculations, and conditional logic to improve accuracy and streamline the process

Faster responses

Avoid backlogs, delays, and lost paperwork by keeping everything online and easily accessible
